We have copies of the "2007 Recreational Fishing Regulations Summary" on Trout Lake and copies are also kept at the Joyce Lake Outpost.

Please do your part to conserve our remote fly-in waters. We Boois & staff urge you to purchase conservation licences.

Fishing Licences for Sale:

We sell Non-Resident fishing licenses at the lodge. Prices are the same whether you buy from us Boois or in any Ontario licence-selling location.

Save time- have your fishing licences filled in by us when you get to Boois Island on Trout Lake.

Save even more time- have us fill in your fishing licences in advance. There are 2 ways. Prior to your arrival print out the form on page 15. E-mail to tjbooi@telus.net, or fax to the lodge at 1 807/727-2489. If the line is busy then fax to our head office at 1 250/468-1467. Another way is, click <http://www.boois.com/fishing-license.htm>. You'll find a form to fill in at Booi's site, which will be automatically sent to the lodge. Your licence will be waiting for your signature. Easy as Canadian apple pie.

If link doesn't open, go to our site at <http://www.boois.com> then to "Fish Info." 2nd from left, then click on "Fishing Licence".

Need help choosing which type of licence to purchase? The next page is a summary of 4 major non-resident licences that are available. Note: this is a Booi Briefing and subject to change according to the Ontario Fishing Laws that govern Trout Lake and Joyce Lake and Boois own policies.

2006 FISHING REGULATIONS (2007 will be updated in a few months)

Pick up your copy of the 2007 Fishing Regulations at the lodge counter or at Joyce Lake Outpost.

Catch Limit: The number of fish that you are allowed in possession- daily- this includes your fish in the freezer, in the fridge, on your stringer and also fish eaten each day are included in your daily catch limit. When travelling home you are only allowed to have your daily limit with you. If you aren't clear on this, please ask us.

Freezing Fish: Each fish packaged for the freezer must be wrapped 1 fish per package, frozen flat, with a large patch of skin (at least 2 inches) left on each fillet for identification purposes. Each fish must be labelled with fish specie (e.g. W for Walleye, N for Northern and L.T. for Lake Trout), have the cottage number (e.g. C#5) and also the first initial and last name. (E.G. if John Smith froze a walleye and he stayed in Cottage 3, his frozen fish would be labelled- **WC#3 Smith.**

Size Limits: Are the same for both sport fishing and conservation. To measure the fish accurately, measure from the tip of the nose to the tip of the tail with the lobes compressed.

Bait Restrictions: Smelt are not allowed

Walleye:

Catch Limits:

Sport Fishing: 4 fish
Conservation: 2 fish

Size Limits:

Perma-mount trophies, which do not require the dead fish, can be made. These mounts only require a description of the trophy and a picture if you have it. Want more info on perma-mounts? Ask Jim or Tracy. Thank you for doing your part in conserving Trout Lake's trophy pike fishery. It's appreciated and noted. And, of course, like the past 21 years, Joyce Lake is catch and release only, with walleyes less than 18 inches within your conservation limit allowed to be consumed during your stay. Thank you- Joyce Lake remains a top-notch trophy lake because of you.

You will pass the skating rink on your left, there will be some house on your right. Keep going. Soon you will pass the old gold mine site on your left. Keep going a little ways and soon you will glimpse the lake on your left and the airbase. Please keep in mind the highway signs and also the sign at the airbase may still read Red Lake Airways. If you have any questions, or need clarification of your flight times, please do not hesitate to call.
